CISA Exam Passed – Certification Pending Experience Requirement

PROFILE SUMMARY

IT professional specializing in **IT Audit, Cybersecurity, Compliance, and Risk Management**, with proven experience identifying vulnerabilities, evaluating internal controls, and enhancing security posture across multiple environments. Skilled in **ITGC testing, SOX compliance, risk assessment, vulnerability analysis, and security operations support**. Adept at partnering with cross-functional teams to improve processes, strengthen controls, and ensure adherence to regulatory frameworks. Committed to protecting data integrity, availability, and confidentiality in dynamic IT environments.

CORE SKILLS

- IT Auditing & ITGC Testing
 - Risk Assessment & Risk Mitigation
 - SOX Compliance
 - Network & System Security
 - Governance, Risk & Compliance (GRC)
 - Vulnerability Assessment
 - Security Awareness & Reporting
 - Cloud Security Concepts
 - Regulatory Compliance (NIST, COBIT, ISO)
 - Internal Controls & Security Policies
 - Incident Response Support
 - SQL & Excel
 -
-

KEY QUALIFICATIONS

- Experience performing **IT general controls testing**, documenting control gaps, and recommending remediation.
 - Strong understanding of **internal controls frameworks**, regulatory expectations, and risk management principles.
 - Skilled at assessing vulnerabilities, analyzing root causes, and tracking remediation through the audit lifecycle.
 - Proven ability to collaborate with technical and non-technical teams to strengthen compliance and operational maturity.
 - Experienced in creating, reviewing, and improving **IT security policies, SOPs, and audit documentation**.
 - Hands-on experience supporting end users, managing technical assets, and troubleshooting systems across enterprise environments.
-

PROFESSIONAL EXPERIENCE

Information Technology Auditor

Ed Cromann | 2022 – 2024

- Conducted IT audits to evaluate **ITGC controls, access management, change management, security configurations, and compliance gaps**.
- Performed **SOX controls testing** and continuous monitoring activities, ensuring adherence to regulatory standards.
- Identified security vulnerabilities and recommended corrective actions using the **PDCA (Plan-Do-Check-Act)** methodology.

- Strengthened organizational control environment by reviewing process documentation and achieving **100% compliance** across key audit areas.
 - Prepared detailed audit workpapers, documentation, and reports to ensure reproducibility and regulatory alignment.
 - Assessed the design and operating effectiveness of IT internal controls, providing recommendations to reduce risk exposure.
 - Conducted end-to-end audit test work based on established audit programs, identifying issues and driving follow-up remediation.
-

End-User IT Support Specialist

KOvERIT | 2020 – 2022

- Served as subject matter expert for helpdesk operations, supporting both enrollment and participation systems.
 - Provided on-site and remote support for hardware, software, network, and system issues across diverse environments.
 - Configured new devices, workstations, and print stations to meet enterprise standards and operational needs.
 - Utilized tools such as **Active Directory, Remedy, and LANDesk** for troubleshooting, asset management, and ticket resolution.
 - Supported Microsoft, macOS, and Linux environments; assisted with small project tasks and systems rollouts.
 - Collaborated with project teams to resolve technical issues and improve service delivery performance.
-

Maintenance Technician

Kroger | 2024 – Present

- Assist with preventive maintenance tasks to ensure operational uptime of equipment and facilities.
- Troubleshoot issues, repair equipment, maintain parts inventory, and support safety procedures.
- Collaborate with skilled technicians to perform component replacement and system inspections.

Maintenance Technician

Filet of Chicken | 2015 – 2020

- Led short- and long-term maintenance projects aligned with operational goals and performance requirements.
 - Applied Six Sigma Greenbelt principles to reduce downtime and improve process efficiency.
 - Performed preventive maintenance on complex electrical, hydraulic, pneumatic, and mechanical systems.
 - Conducted welding repairs and maintained production machinery to ensure optimal equipment uptime.
-

Undergraduate Research Assistant

Albany State University | 2013 – 2014

- Developed tools and prototypes for bioprinting and tissue modeling research.
 - Created detailed SOPs and in-process testing tools to support quality control and reproducibility.
 - Worked with research teams to deliver project solutions for industry partners.
-

EDUCATION

Bachelor of Science in Information Technology | 2025 – Present

Kennesaw State University — Expected Graduation: **May 2027**

Bachelor of Science in Pre-Engineering | 2011 – 2014

Albany State University

CERTIFICATIONS

- **CISA – Certified Information Systems Auditor (Exam Passed, experience requirement pending)**
(Note: CISA is from ISACA, not the Cybersecurity & Infrastructure Security Agency)

TECHNICAL SKILLS

SQL | Excel | Active Directory | ITGC Testing | Helpdesk Tools (Remedy, LANDesk) | Documentation & Reporting | Audit Workpaper Development
